This application contains claims directed to the following patentably distinct species:

Species I) figure 17

Species II) figure 19

Species III) figure 20

Species IV) figure 21

Species V) figure 5

It would appear that under species V there are two sets of subspecies. One is drawn toward the transmitter side and the other is drawn toward the receiver side. If the applicant elects species V, he must also elect one subspecies from the transmitter subspecies and one subspecies from the receiver. (For example, "I elect species V drawn toward figure 5. I also elect subspecies A drawn toward figure 8 and subspecies D drawn toward figure 7. The claims that read on this election are..."). If the following subspecies are subspecies of species I-IV, the applicant should elect such subspecies, as well as, the species.

Transmitter subspecies:

Subspecies A) figure 8

Subspecies B) figure 9

Subspecies C) figure 12

Receiver subspecies:

Subspecies D) figure 7

Subspecies E) figure 10

Subspecies F) figure 11

Subspecies G) figure 13

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1, 23 and 45 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.
MPEP § 809.02(a).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
